

MOUNTING OPTIONS

-00 LSI Track Adaptor

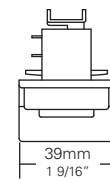

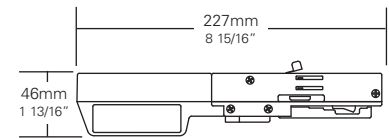

Low profile Lexan adaptor for 1 and 2 circuit LSI Track. Integral on/off switch and mechanical safety interlock for positive nonenergized making and breaking of fixture contacts with track. Available in Black, White, and Silver Lexan to match fixture housings and track.

-00C LSI Track Adaptor

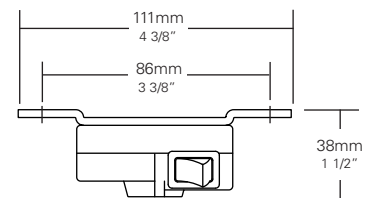

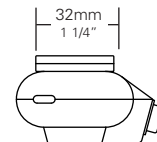

Low profile Lexan adaptor for 1 and 2 circuit LSI Track with integral transformer for certain low voltage fixtures (see specific catalog sheets). Integral on/off switch and mechanical safety interlock for positive nonenergized making and breaking of fixture contacts with track. Available in Black, White, and Silver Lexan to match fixture housings and track.

-2G Universal Flange Adaptor

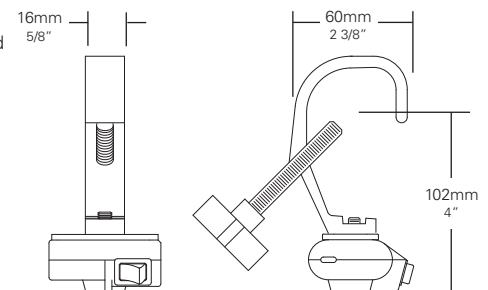

2-hole flanged steel plate for any screw or bolt-up application. Integral on/off switch and 2500mm cord and plug. Available in Black, White, and Silver paint finish to match fixture housings. White finish supplied with white cord, all other finishes supplied with black cord.

-3G C-Clamp Adaptor

Extruded Aluminium C-Clamp for pipes from 16mm to 50mm O.D. Integral on/off switch and 2500mm cord and plug. Available in Black, White, and Silver paint finish to match fixture housings. White finish supplied with white cord, all other finishes supplied with black cord.

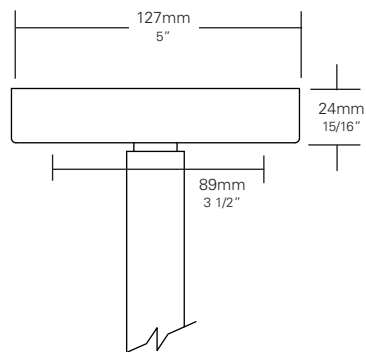

MOUNTING OPTIONS

-5 Canopy Adaptor

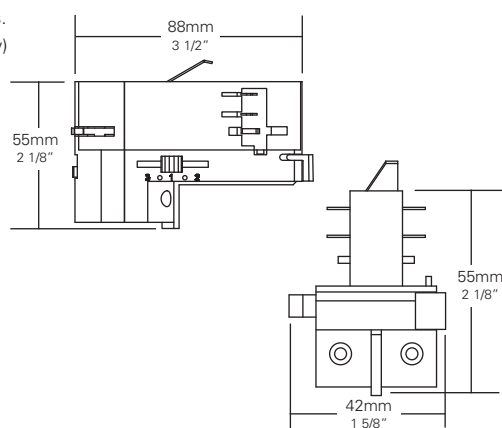

24mm deep by 127mm diameter Surface mounting plate with terminal block for mains connection. Fixture supplied with 150mm high temperature leads ready for splicing. No switch. Available in Black, White and Silver paint finish to match fixture housings.

-6 Global Adaptor

Adaptor for use in most 3 circuit track systems. Available in Black or White. (Mains voltage only)

-8 Eutrack Adaptor

Adaptor with integral 12V transformer for certain low voltage fixtures (see specific catalog sheets) for use in most 3 circuit track systems. Available in Black or White.
