

HILine Linear Specifications

Preliminary Data Sheet

The HILine Linear is an indirect fixture discreetly hidden in the upper section of the Gemini housing. Up to 22 watts, HILine Linear provides 1700 Lumens per foot at 90 CRI. Available in 2 FT lengths, it's available with 5 different optic options. HILine Linear fixtures can easily daisy chain together with pre-made wiring harnesses. Dimming protocols include Phase dimming, 0-10V, and DMX.

SOURCE	LED Linear Array
VOLTAGE	120-277
WATTAGE	22W (11 W/FT)
Lumen Output (Module)	Up to 3400 Lumens (1700 Lumens / FT)
COLOR TEMPERATURE	3000K, 3500K, 4000K
OPTICS	40, 50, 70 degree 165 degree batwing 30 degree asymmetric
LIFE	50,000 HRS
SUSTAINABLE	SUP KIT Available
WEIGHT / SIZE	3 LBS / 2FT
DIMMING PROTOCOLS	Phase Dimming, 0-10V, DMX
ESTIMATED AVAILIBLTY	Q2 2024
